Samling Delivers Medical Supplies to Sarikei Hospital

The Samling Group is donating medical supplies to give health workers the equipment and protection they need to help fight the COVID-19 pandemic.

On April 15, 2020, Samling's representative Choo Siong Liew delivered the first batch of medical supplies which includes 17 large carton boxes of surgical masks, thermometer guns, hand sanitizers and gloves to Dr Tey Siew Chang, Director of the Sarikei Hospital. The second batch of supplies are expected to arrive at a later date.

This marks Sarikei Hospital as our fifth aid recipient following our contribution to four other hospitals and clinics in Sarawak including Miri, Marudj, Bintulu and Tatau.
